

ALL-ROUND TYPE 1 CARE

At the Type 1 Diabetes Family Centre, we're passionate about ensuring everyone with type 1 diabetes can access the latest technology swiftly, safely, and with confidence. Our expert clinicians are trained to support insulin pump and CGM starts for all available tech, to patients right across Australia.

We also provide comprehensive one-on-one and group pre-education, equipping your patients with the knowledge they need to seamlessly transition to their new device. Because when it comes to diabetes care, innovation should be exciting, empowering, and accessible to all.

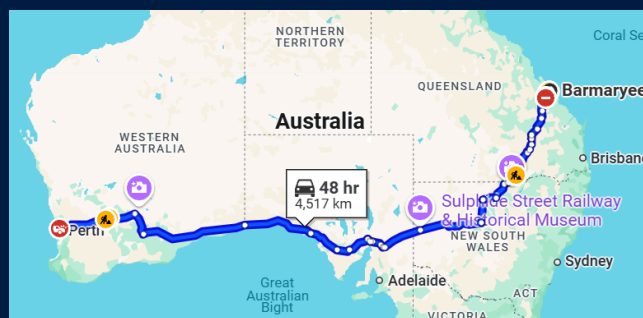

>>> OMNIPOD 5 LAUNCH - T1FC IN THE NEWS!

The Omnipod 5 is Australia's only tubeless insulin pump with automated insulin delivery. When linked to the Dexcom G6/G7 the system automatically adjusts basal insulin delivery every 5 mins based on CGM readings, helping keep glucose within a target range. Our Senior Clinician Amy Rush and CEO Benjamin Jardine were the first duo to set up the system here in WA and were featured on the Channel 10 news! Watch the story to learn more about the Omnipod 5 system: <https://www.facebook.com/watch/?v=8672790999490919>

>>> GROW YOUR ENDOCRINOLOGY PRACTICE WITH US, ON SITE OR VIA TELEHEALTH

Our thriving allied health clinic features a specialist team of dietitians, diabetes educators, and psychologists. Our clients are seeking a one-stop shop for all their T1D needs, so we're looking to complete the circle of care with an endocrinologist! We have the perfect room for your next clinic, or can accommodate telehealth services for interstate applicants. We offer full reception support and consistent referrals. Contact amy@type1familycentre.org.au for details.

>>> OMNIPOD 5 SET UPS ACROSS AUSTRALIA

Our team of certified diabetes educators is ready to get your patients started on the Omnipod 5—with no long wait times!

We offer a personalised, seamless pump start experience, including comprehensive pre-pump education, setup, and follow-up care. Whether in person or via telehealth, we ensure everyone with type 1 can access life-changing technology, no matter where they are.

Refer patients via clinic@type1familycentre.org.au or 08 9446 6446.

>>> TYPE 1 BOOTCAMP MAY 2025

Type 1 Bootcamp is the ultimate type 1 diabetes 101 workshop, perfect for anyone looking to master the basics or level up their knowledge. Your patients will learn alongside peers who truly get it.

Whether they need a newly diagnosed crash course, a refresher, or pre-education for an insulin pump transition, this workshop has them covered.

Held over two Saturdays, Day 1 focuses on carb counting and insulin adjustment, while Day 2 brings it to life, exploring how exercise, alcohol, stress, and mental health impact blood glucose management.
